Amy has extensive experience with developing Phase I General Management Plans on behalf of the State of Michigan Parks and Recreation Division. She recently worked on plans for Wetzel State Recreation Area (Macomb County), Negwegon State Park (Alpena/Alcona Counties), the Rockport Property (Alpena County) and Thompson's Harbor State Park (Presque Isle County). She brings the ability to apply her skills and knowledge to a wide-range of projects. She has either managed or assisted with *Walkable Community™* plans, hazard mitigation plans, recreation plan updates, corridor improvement / downtown development and TIF plans, a county master plan, area plans, and a corridor study.

Equally important to plan development is plan implementation. To this end, Amy prepares grant applications on behalf of client communities. Applications include MDOT Enhancement, Economic Development Agency, FEMA and MDNR Trust Fund grants.

Prior to becoming a city planner, Amy was an environmental Consultant, performing Phase I Site Assessments and assisting with compliance audits.

EXPERIENCE HIGHLIGHTS

- ◆ Speaker at the Michigan Association of Regions / Michigan Transportation Planning 2004 Conference, *The Process for Hazard Mitigation Planning*
- ◆ Vice President of Public Relations for the Huron Valley Toastmasters Club
- ◆ 2007 Mike Lin Graphics Workshop
