

DIRECTOR OF TRAFFIC ENGINEERING WILLIAM A. STIMPSON, P.E.

WILLIAM A. STIMPSON HAS 38 YEARS OF research and operational experience in transportation and traffic engineering, specializing in traffic safety and site planning. His traffic safety work has included driver performance research, and facility safety auditing. His site planning work has included plan development and review, traffic impact analysis, and access management. He has also dealt with parking and a wide variety of other traffic planning issues, ridesharing, and bicycling incentives.

Since joining Birchler Arroyo Associates, Inc. in 1998, Mr. Stimpson has performed traffic reviews of numerous site plans; prepared thoroughfare plans, corridor safety studies, and access management studies; both conducted and reviewed numerous traffic impact studies; and completed signal warrant evaluations and cut-through traffic studies for public and private clients. His projects have ranged from regional shopping centers and 5,000-seat worship facilities to small residential projects and retail establishments.

Mr. Stimpson is a skilled site plan reviewer, providing valuable consultations to municipalities and private developers. His comprehensive traffic review of a site plan can dramatically improve on-site circulation, access to and from the public road network, and pedestrian safety. He is also an expert in shared parking analysis, offering the ability to eliminate unwarranted impervious surfaces and increase site efficiency.
